

MazikCare CarePlan

Coordinated Care Solution for Chronic, Transition, and Injury Patient Care

CarePlan improves patient care plan adherence and engagement by optimizing and automating processes for population cohorts and individual patients.

MazikCare CarePlan is built on Microsoft Dynamics 365 and utilizes the Microsoft Cloud for Healthcare to provide security, agility, and scalability to enhance the end-to-end business operations across the care continuum.

Developed by healthcare industry and technology experts, **CarePlan** empowers patients to take control of their health and promotes better care plan adherence for better health outcomes.

Provider Benefits

- Improves care coordination between patients and providers through automated workflows
- Increases productivity of providers and clinicians with decreased administrative tasks
- Reduces burden on call centers
- Improves efficiency of provider organization
- Increases prescription fulfillment and refills

Patient Benefits

- Improves patient adherence to care plans
- Easy to use interface enables immediate feedback to providers
- Automated reminders reduce risk of missed doses and appointment no-shows
- Promotes patient ownership of personal care plan
- Reduces number of emergency room re-admittance

An easier transition back to good health starts here with MazikCare and Microsoft Cloud for Healthcare.
