

Introducing MazikCare Copilot

Augmenting human capacity in healthcare through AI

Qusitive's MazikCare Copilot is a groundbreaking addition to the complete healthcare cloud platform offered by Qusitive and empowers healthcare professionals to leverage AI to transform productivity and patient experiences. Backed by Qusitive's status as a three-time Microsoft US Partner of the Year in Healthcare, MazikCare Copilot stands at the forefront of AI innovation in healthcare.

Unlike competitors, MazikCare Copilot leverages Microsoft's Complete Cloud along with pre-built EMR/EHR connectors to expedite AI assistance, ensure security, and scale capacity.

Elevate Team Collaboration for Effective Care Management

Experience AI-powered care coordination like never before with MazikCare Copilot. Bridge care gaps, enhance teamwork, reduce burnout and elevate the entire patient journey with our cutting-edge platform.

Cut Costs: MazikCare Copilot is designed to reduce operational costs, decrease wait times, and minimize re-admission rates, ultimately leading to significant cost savings for healthcare organizations.

Boost Productivity: By automating routine tasks and streamlining workflows, MazikCare Copilot enables healthcare teams to reduce administrative work and focus on delivering exceptional care experiences.

Enhance Patient Outcomes: MazikCare Copilot facilitates the entire patient journey, from referrals to insurance policy reviews, discharge write-ups, and tailored care treatment plans, reducing errors and resulting in better patient outcomes and increased satisfaction.

Improve Predictive Analytics and Risk Management: With predictive analytics, MazikCare Copilot empowers healthcare organizations to proactively identify and mitigate risks, optimize resource allocation, and prevent adverse outcomes.

Focus more on patients – and less on paperwork!

Get buildable AI for healthcare that scales with you:

Physicians and care teams are spending millions of hours a year on unnecessary administrative tasks – driving burnout, and in some cases reduced clinical hours, at a time when millions of patients are struggling with access to health care.

Additionally, patient messaging has increased by a staggering 157% since the COVID-19 pandemic, adding to the administrative burdens felt by care providers.

Get started with MazikCare Copilot today to automate routine tasks using Microsoft Outlook and Teams.

Reduce administrative tasks by more than **40%** and respond to patient messages faster and better with MazikCare Copilot

Task Management

Lean on MazikCare Copilot to route and triage referrals and administrative tasks to reduce burnout, lower risk, and realize new levels of efficiency.

Appointment Scheduling

Facilitate appointment management without leaving Outlook or Teams for better coordination and reduced no-show rates.

Response Generation & Messaging

Ensure fast and consistent communication with automated responses to any inquiry directly within Teams.

Secure Team Collaboration

Get HIPAA-compliant messaging within Teams to allow care teams to securely share sensitive cases and records.

Virtual Primary Care

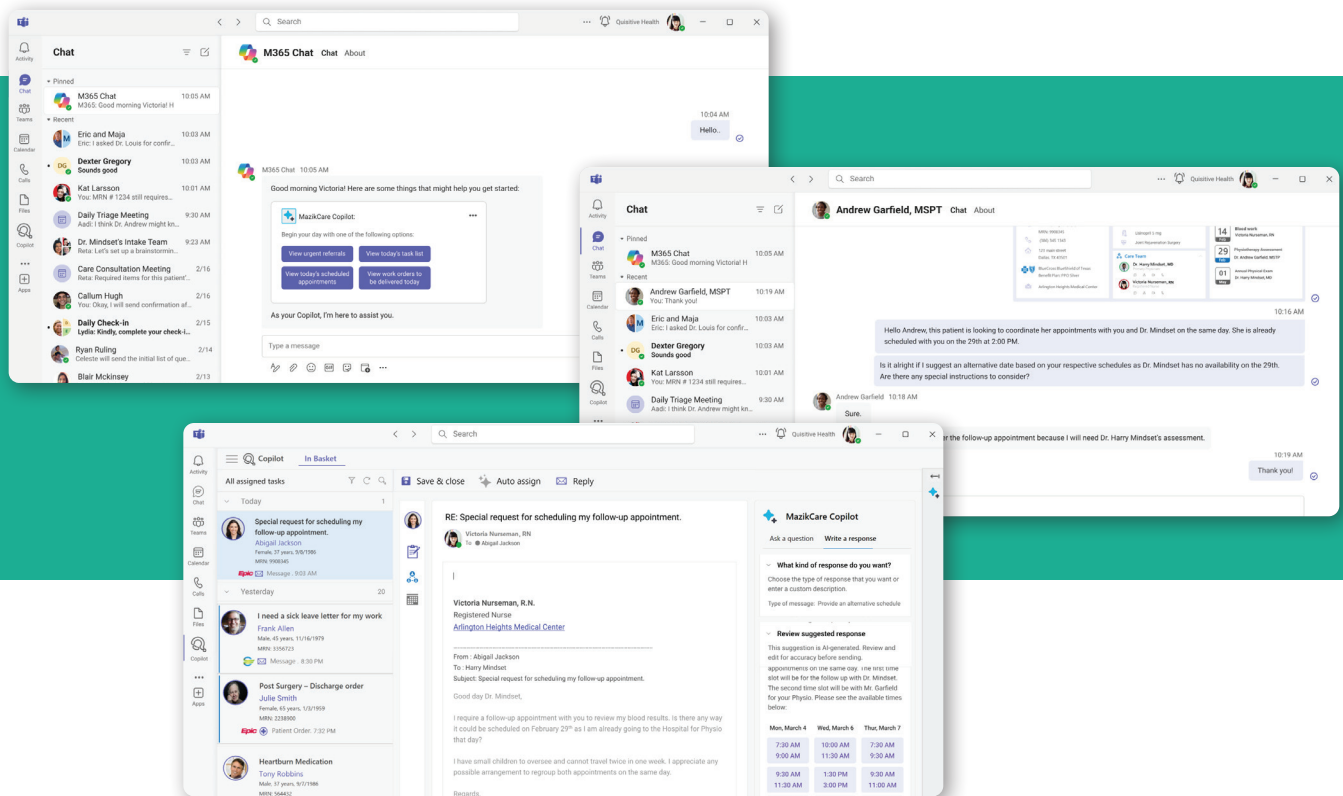

Conduct secure virtual consultations and appointments directly within Teams and leverage MazikCare Copilot to guide documentation and follow up.

Clinical Documentation & Forms

Generate completed forms, discharge documents, and letters in seconds, saving hours of work and freeing up staff to focus on what matters most.

Clinical Scribe

Leverage AI in Teams for clinical transcription and appointment summaries.

Connect MazikCare Copilot to MazikCare Care Path and EMR/EHR systems like Epic® and Cerner® for even more AI power:

Patient Engagement Portal

Connect data from EMR/EHR systems and MazikCare to give patients secure self-service access to all information, treatment plans, and messaging, for better care plan adherence and patient outcomes.

AI-Driven Insights

Eliminate data siloes. Leverage Microsoft Fabric and MazikCare Dashboards for insights on patient outcomes, care team efficiency, and resource utilization.

Secure Access to Information

Connect EMR/HER data with MazikCare and empower patients, payers, and care teams with a single secure and complete view of patient information.

Unlocking the full potential of MazikCare Copilot

Seamlessly integrate MazikCare Copilot with your existing systems, including Microsoft Teams, Outlook, Power BI and EMR/HER systems, to unify data and kickstart AI assisted productivity.

Experience the Future of AI in Healthcare Today

Join the ranks of forward-thinking organizations leveraging MazikCare Copilot to drive efficiency, collaboration, and excellence in care delivery.

Get in touch and embark on a journey towards unparalleled care coordination and patient-centric excellence.

Care Coordination Dashboards & Communication

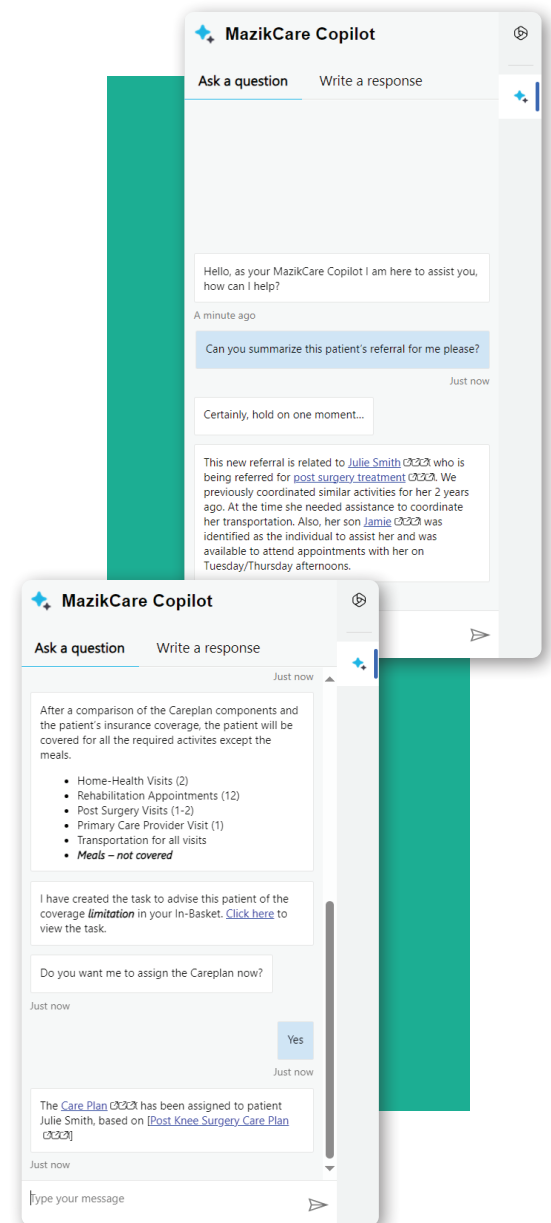

Get a centralized view of patient journeys, cases, and history and bring core information directly into Outlook and Teams to expedite communication and care coordination.

Care Pathways

Leverage patient communications, history, and cases to develop tailored care plans that reduce re-admission and improve outcomes.

Improve Claim & Denial Management

Save millions in faulty claims. Connecting MazikCare Copilot with MazikCare Payer Matrix to optimize revenue cycle management and increase profits.
