

# Azure VMware Solution Proof of Concept

Broadcom's acquisition of VMware (and the resulting contracting and licensing changes) is causing uncertainty for customers and many are considering moving to the cloud.

However, transformation is not as simple as just pressing a button. Companies have spent years investing in these technologies and the skillsets required to operate and manage them.

**Azure VMware Solution, a comprehensive VMware environment running natively on Azure, is the best option for such customers.**

## Accelerate your modernization journey with confidence

Leverage the rich Azure expertise of Qusitive ahead of any planned migration to explore the potential of extending your VMware infrastructure to Azure as a hybrid cloud solution.

### What we cover

Plan and establish network connectivity and a trial AVS cluster to create a secure and efficient hybrid cloud environment.

Deploy the HCX and Azure Backup Server solutions to provide migration and backup validation, ensuring that all critical data and applications can be protected.

Leverage HCX-based migration or HCX DR failovers from existing VMware data centers to complete the migration or protection process.

-  **Fastest migration option**  
No refactoring or application modifications required
-  **Take advantage of existing VMware expertise**  
Included licenses: vSphere, vSAN, NSX-T, and HCX
-  **Fully-managed, first-party Azure service**  
Management of VMware resources through the Azure portal

### Final deliverables

-  Detailed Azure VMware Solution network customer diagram
-  Comprehensive Azure VMware Cloud Adoption Framework document
-  Azure VMware test scenarios report and findings

 **Duration: 8 Weeks**       **Estimated Price: \$70,000**

Qusitive is an expert in the implementation and deployment of all three Microsoft cloud platforms

 Microsoft Solutions Partner  
**6/6** Solution Partner Designations

 Microsoft  
**18** Microsoft Specializations

 Microsoft   
Microsoft US Health and Life Sciences Partner of the Year for 3 years in a row

 Microsoft   
**2019 Partner of the Year** for United States
