

QUISITIVE

Introducing Spyglass® MDR

Managed Detection & Response
Services from Qusitive

Cybercrime is
projected to cost

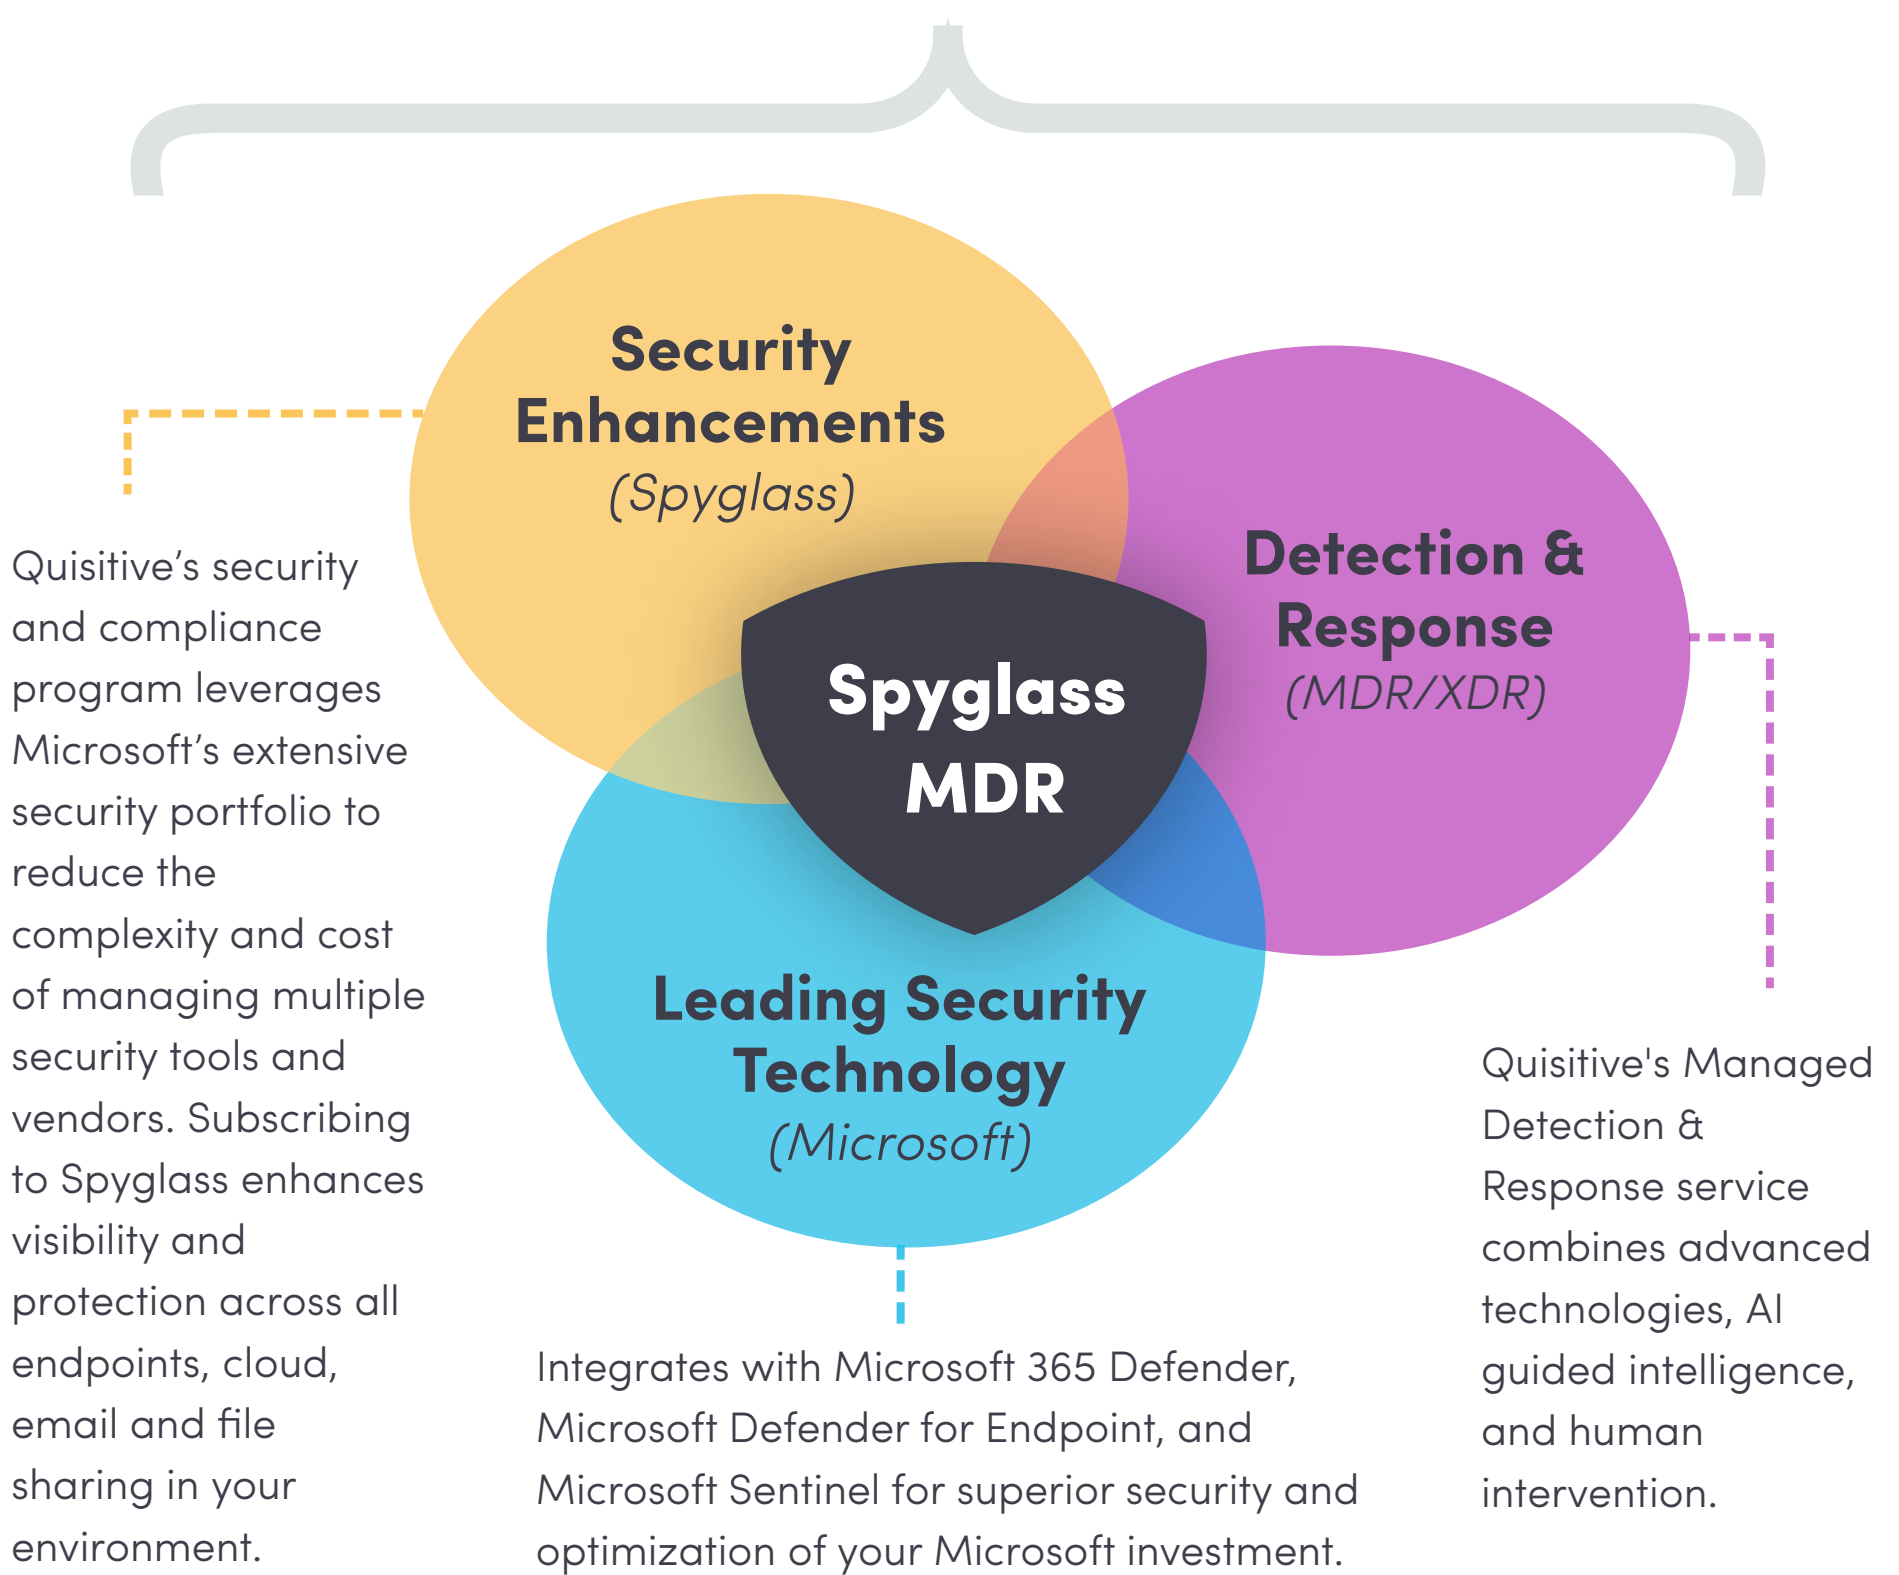

\$10.5 T
ANNUALLY

by 2025.¹

**Stay Ahead of Threats. Simplify Security.
Protect What Matters.**

Spyglass MDR by Qusitive, backed by Microsoft's leading security technology, delivers rapid, 24/7 threat detection and response. Reduce a complexity, cut costs, and secure every endpoint with world-class protection that's always on guard.

Adding MDR to a Spyclass or AMS subscription gives a proactive approach to cybersecurity with an extra layer of advanced technology, expert analysts, and 24x7x365 threat monitoring and response activities that will help minimize the impact of breaches.

Key Capabilities & Features:

World-class security operations centers based in the United States are **staffed 24x7x365**.

Industry-leading response with **1-hour time-to-detection and 1-hour time-to-resolution** for every alert.

Detect, resolve, and remediate every alert right from your phone. **MobileSoc® gives you mobile access to all security tools.**

Leverages **Trusted Behavior Registry®**, automatically detecting every alert, resolving every threat, and reducing false positives.
